im having an error on startup:

OGRE EXCEPTION(3:RenderingAPIException): Zero sized texture surface on texture mp_bloodsplat_2x2.dds face 0 mipmap 0. Probably, the GL driver refused to create the texture. in GLTexture::_createSurfaceList at src\OgreGLTexture.cpp (line 407)

I have no idea what it means...

Some sites said I may need to update my directx thing.. The prequel Pre-Dynastic Egypt was a neat little game with a good balance between scripted play and free choice. Because of that good experience, I decided to purchase Egypt: Old Kingdom for some Easter fun. Unfortunately this sequel, despite having been out for some time, isn't finished — and the game cannot be reasonably finished either. With the experience from the prequel, I decided to choose medium difficulty but was never unable to get even a bronze medal from the civil war trial, despite obtaining gold from all the previous trials and having a competitive edge.

The game balance is simply not there at all, and I cannot recommend this game even though I would love to. Hopefully the developing team fixes this. The game has been out there for a while already and has a plenty of complaints for bugs. I can live with some, but not with ones that make the game unplayable.. I like this game. I would love to see more arcade-type and VR remakes of the classic arcade games. The visuals are way cool. The concept of being "in" the game and being able to actually deliver that with VR is a welcomed experience. This is well worth the \$2. The experience is worth a lot more than the price.. This was a pretty good tycoon game! I really loved it! although they still need to work on some of the cool things, its pretty good.. Its a rage quit game. You just try and try but you cannot succeed. Really bad for people who are color blind

Cute idea, cute premise, but it's not really enough to keep me interested. 15 minutes and I'm bored. (And before you point fingers...I LIKE typing! I'm an author!)

Pros

- I got to kind of read classic novels while typing at the same time
- I learned that I type real fast (Thanks, Obama!)

Cons

- I got to kind of read the SAME classic novels over and over
- Multiplayer is nonexistent. If you like off roading and rock crawling in 4lo and both axles locked this is a great game to kill the off-road bug when you can't get out there for real! Adjust/change tire pressure, ride height, spring tension, tire size/tread, 4hi, 4lo, lock diffs. Choose the correct line and approach to get over obstacles. If that don't work you got a winch too!. Less than an hour of content. One update since Sept. Too expensive.. I love this soundtrack, the songs are simple and really nice! Highly recommended. :). This game. nono this is life. trust me ive only spent about 13 mins on this game but it was the best time of my life this game showed how the best way to live life is. and that is to cut peoples beards and paint them, it was amazing. i highly HIGHLY suggest letting any man woman or child with the BALLS to play this game. and find the true meaning of the beard culture. AMEN
